The image shows a browser window displaying the website [sardiniacocs.it/ICSC2023.html](https://sardiniacocs.it/ICSC2023.html). The website has a blue header with the logo and name "SARDINIACOCS.IT Provider ECM n° 3903" on the left, and navigation links for "Home", "Chi siamo", "Congressi", "FAD", and "Privacy" on the right. The main content area features a dark blue background with a microscopic image of cells. The central text reads "1st INTERNATIONAL CANCER SCIENCE CONGRESS 2023". Below this, a sub-headline states "Personalized cancer care: from omics technologies to complementary medicine." followed by a paragraph: "This is the first of a series of conferences aimed to gather the leading international experts in the field of oncology." At the bottom, another line of text begins: "The three-day conference focuses on sophisticated omics for diagnosis, prognosis and personalized therapy and".

#### Summary:

This Special Issue will collect original research and review articles from the speakers at the 1st International Cancer Science Congress.

Cancer remains the second leading cause of mortality and its incidence is steadily increasing especially in Western countries, which represents an unbearable burden for individuals and health systems. There is an urgent need to learn more about cancer biology that could inform strategies for prevention, early diagnosis, and more effective new therapeutic interventions. This is the first in a new series of international conferences focusing on cancer cell biology and its translational application in new methods of detection and treatment. Renowned experts in the field of oncology from various research institutes are

# 1st INTERNATIONAL CANCER SCIENCE CONGRESS 2023

"Personalized cancer care: from omics technologies to complementary medicine"

## ACKNOWLEDGEMENTS

*Our first thank is for all the Speakers that accepted the invitation despite the short notice time and their busy schedule. We greatly appreciate their dedication. We hope that they have enjoyed their stay at Addaura, in Mondello.*

*We thank the Charity "Associazione per la Ricerca Medica "Ippocrate-Rhazi" (ARM-IR, Novara, Italy) and the Università del Piemonte Orientale for hosting the event.*

*Special Thanks are due to our partners Consorzio Interuniversitario per le Biotecnologie (CIB, Trieste, Italy), for supporting with a fellowship two young PhD students, and the International Society of Precision Cancer Medicine.*

*I wish to thank Mrs Vittoria Marotta of the Sardinia agency for her professional assistance in managing the logistic organization.*

*Special thanks to Letizia and Beatrice of the Scientific Secretariat for their wonderful work in coordinating the Scientific Program.*

*The kind support from Tipografia Italgrafica in Novara for printing the Abstract book is gratefully acknowledged.*

*Last, but not least and most importantly, we are grateful to the Molecular Pathology Lab staff for their invaluable help in the practical management of the conference.*

Ciro Isidoro,

Chair of the Scientific and Organizing Committee,

on behalf of Danny N Dhanasekaran, Yong-Sang Song, John DiGiovanni, Alessandra Ferraresi
